The furniture shown on this and the following page is our very best grade of office furniture. The material is selected quartered oak veneer, mahogany veneer or walnut veneer. The posts in the oak desks are solid quartered oak and in the other finishes, quartered gum wood. These desks furnished with open backs or continuous back panels as shown on page 7 at same price.

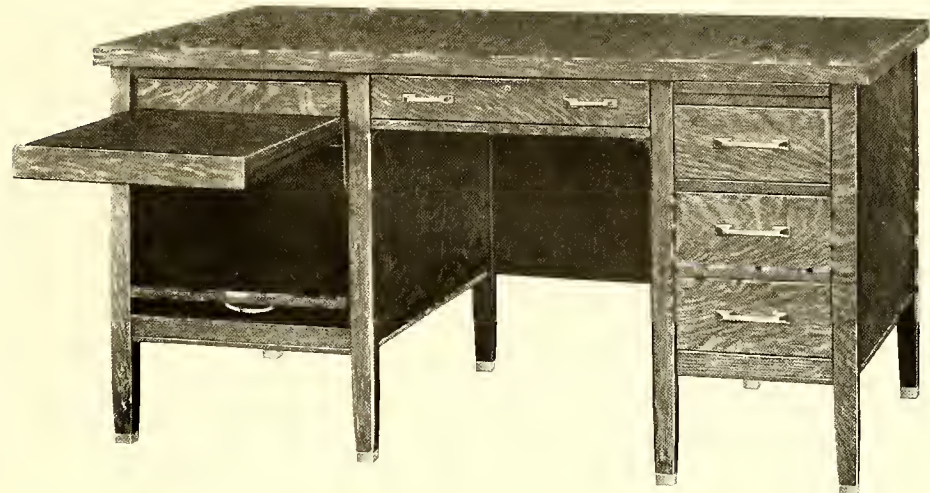

Writing beds 1½" thick, chestnut core with banded edges. Posts 1¼"x1¼", tapered with brass ferrules and steel sliding shoes. Drawers dovetailed front and back with three-ply bottoms framed in, the sides are oak and the interiors are finished with a coat of shellac and a coat of flat varnish. Finish same as those shown on page three.

For tables to match these desks, see the 2800T line on page 12.

Quality Chairs of Durable Construction

**Model X Desk Chair**—Plain Oak with Quartered Oak or hard Maple desk top, size 21½" wide by 14½" deep, all edges rounded. Arm rest on right side extending to back post. Top reinforced with cleats underneath and strongly braced with bentwood truss 6½" wide, 9" long to front standard, and to back post of chair by 12-gauge three way steel brace, making desk top perfectly rigid. Equipped with Boston Ink Well and Pencil Groove. The design and construction features of chair are identical with our famous **No. 399 Tablet Arm Chair**. Finish: School Furniture Brown or Light Oak Dull. Shipping weight, 35 lbs.

The Model X and No. 399 are equipped with WITTLIFF BRACES.

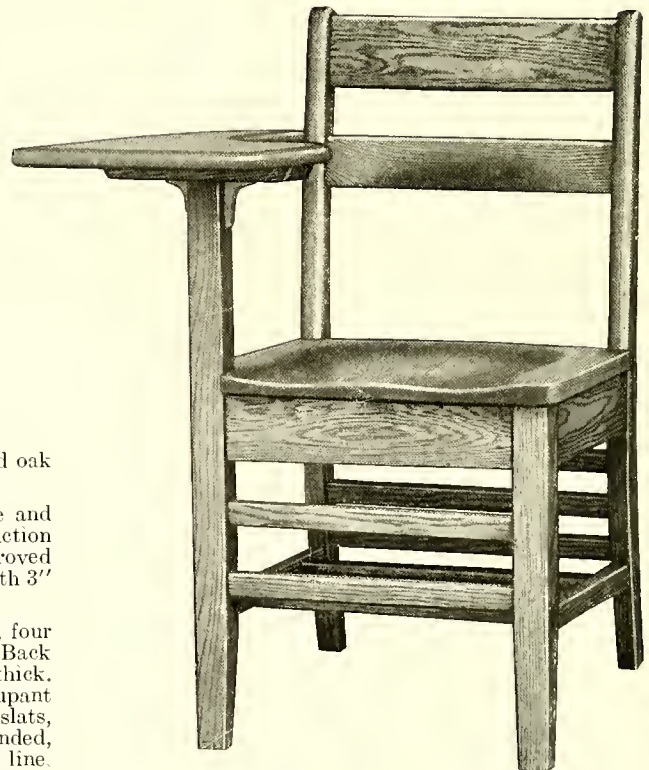

No. 399—Plain Oak  
No. 399QO—Quartered Oak

Made in either plain or quartered oak with either quartered oak or hard maple tablet arm.

Height of back, depth of seat, and height from floor, size and height of tablet arm, details of correct posture back and construction features are shown in phantom illustration on page 28. Improved design saddle seat, 17" wide front, 16" wide back, full boxed with 3" rails, attached to seat with eight screws.

Front and rear stretchers 7/8"x1", side stretchers 7/8"x1 1/8", four bottom slats 3/8"x1 3/4". Front posts 1 3/4" square, tapered. Back posts steam bent from 1 3/4" stock, finished full 1 1/8"x1 5/8" thick. The face of the back posts above seat are so rounded that occupant does not come into contact with any sharp edges. Cross back slats, top 3 1/2" wide all edges rounded, bottom 2 1/2" wide all edges rounded, with front especially formed to give proper support at waist line. The pitch of the back is especially designed to afford CORRECT SEATING. Finish: School Furniture Brown, lacquered.

Shipping weight 26 lbs.

No. 399—Plain Oak  
No. 399QO—Quartered Oak

## The Most Popular Tablet Arm Chair on the Market

No. 9900

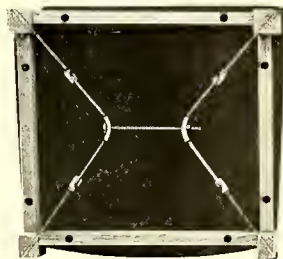

CORRECT SEATING TABLET ARM CHAIR

**No. 9900—Tablet Arm Chair as illustrated.** Made of quarter-sawed oak. Tablet arm of either quarter-sawed oak or hard maple. Height of back 31½" on 17" chair. Back posts steam bent, finished 1x1⅝", with front side above seat rounded. Front posts finished full 1⅝" square, tapered. Stretchers ⅞" square. Spiral dowel construction throughout, with 2¼" screws through back posts into seat. Tablet arm 11¼" wide, 23½" long, attached to back posts by special 12-gauge three-way steel brace, at front by cross wood brace 1x3x9", screwed to arm and doweled to top of post and reinforced by two 2" special pressed steel braces. New improved design saddle seat 17" wide front, 16⅜" wide back, 16¾" deep, full boxed with 2½" rails. Cross back slats, tops 3½" wide rounded all edges, bottom 2½" wide rounded all edges with front specially formed to give proper support at waist line. Entire back of chair especially designed to give correct seating. Finish: School Furniture Brown, lacquered.

When ordering this chair, specify either quarter-sawed oak or hard maple tablet arm.

This chair is extensively used and favorably recommended by leading school officials, in 17" height from top of seat to floor. Carried in stock in 17" height.

Shipping weight 25 lbs.

The 99 and 9900 chairs are equipped with the WITTLIFF BRACE.

**No. 99**—The correct Seating Tablet Arm Chair which was developed by us early in 1925 embraces the three most important factors in seating, COMFORT, DURABILITY and BEAUTY.

**No. 97**—The Correct Seating Tablet Arm Chair which was developed by us in 1926 is especially designed for UNDER SIZED PUPILS and Junior High School use and embodies all the features of the No. 99 chair. Is shown on page 36.

The buyer of Tablet Arm Chairs today is no longer satisfied with buying JUST CHAIRS, he has learned the value of CORRECT SEATING, how it increases the efficiency of the pupil through comfort of body, with back muscles relaxed, shoulders back and chest out, giving the ideal position for work and absence of fatigue.

The buildings of the University of Oklahoma at Norman, Okla., are now equipped with 2850 of No. 99 chairs.

Same as No. 9900 except all plain oak, with either hard maple or quartered oak tablet arm.

## Quality Patterns in Tablet Arm Chairs

### No. 307QO TABLET ARM CHAIR

is constructed of selected quartered oak throughout. Tablet arm may be supplied in hard maple without change in price. This chair embodies all the points of excellence in design and construction required to meet the exacting demands of high schools, colleges and universities. Note the detail specifications.
